DARUL HUDA ISLAMIC SCHOOL AL-AIN
HOLIDAY ASSIGNMENT (2019-20)
Subject: Mathematics Grade:5

1. The biggest animal in the world is the blue whale. Some blue whales have grown as long as 109 feet and have weighed 150 tons. A baby whale gains about 200 pounds a day.
 - a. How many pounds are in a ton?
 - b. How long will it take for a baby to weigh its first ton, if it was 400 pounds at birth?
2. A basket starfish has more than 80,000 arms. If each arm needed a glove, how many pairs of gloves would you need?
3. Sameeha and Wajeeha each have a bag of hard candy. Sameeha said, "Wajeeha, if you give me 5 pieces of candy from your bag, I'll have as many pieces as you." Wajeeha laughed and answered, "No, you give me 5 of yours and I'll have twice as many as you." How many pieces did they each have to begin with?
4. Twice the product of 6×5 is three times as great as this number. What is the number?
5. "If you have a square and you cut off one corner, how many corners do you have left?" asked Fayza. "Easy," answered Nuzha. "Three." "Wrong, Nuzha!" .Where did Nuzha go wrong?
Explain (including a sketch).
